

REMARKS

The specification has been amended to include text found in Glaser *et al.* U. S. Patent No. 5,081,871 at col. 1, lines 9-16 and lines 38-56. This patent reference (along with the others cited in the specification) was incorporated by reference. See the sentence bridging pages 12-13. This text has bee added to Applicants' specification in order to provide written description support for the amended claims. In this regard, Applicants' specification also indicates that the "[m]ethods according to the invention are eminently suitable for both the inpatient and outpatient setting." (Page 6, lines 17-18). Accordingly, the additional text and claims add no prohibited new matter to the specification. A copy of the Glaser *et al.* Patent is attached for the Examiner's convenience.

The Examiner's attention also is directed to copending parent application Serial No. 08/629,584. This parent application has been scheduled for issuance on August 18, 1998.

C O N C L U S I O N S

Applicants respectfully request entry of the foregoing amendments prior to consideration of this application on the merits. The Examiner is requested to contact the undersigned if he believes that a telephone discussion or personal interview might facilitate allowance of this case.

If there are any other fees due in connection with the filing of this Amendment, please charge the fees to our Deposit Account No. 50-0310. If a fee is required for an extension of time under 37 C.F.R. § 1.136 not accounted for above, such an extension is requested, and the fee should also be charged to our Deposit Account.

Respectfully submitted,
